

Multiple Outlet Pressure Control Valves

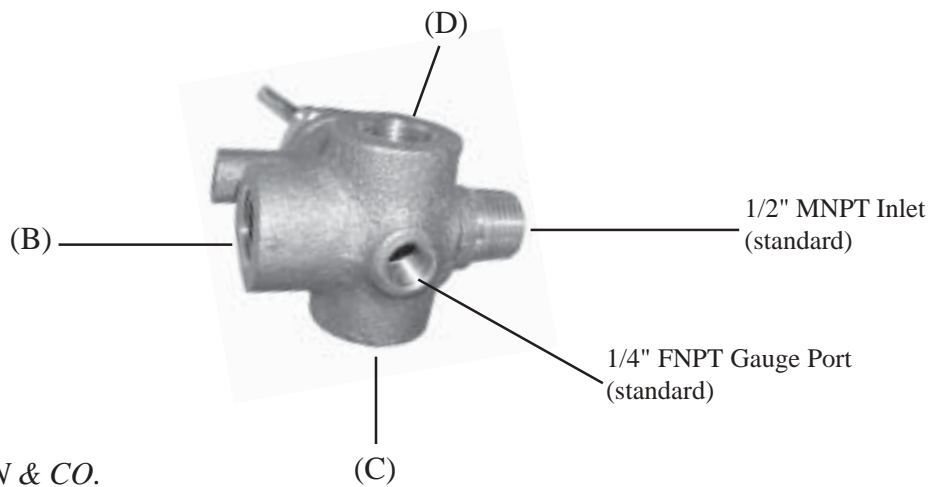

- Compact, economical valve for all spray accessory kits or low to medium volume 1-3 section spray booms
- Valves operate in any position with low pressure drop
- Spring controlled pressure range from 0-600 PSI
- T-handle permits quick adjustments to higher or lower pressures
- All valves have standard 1/2" MNPT inlet and 1/4" FNPT gauge port (Gauge Sold Separately)
- Choice of 1, 2, or 3 outlets ported 1/4", 3/8", 1/2" or 3/4" FNPT. Please specify outlets when ordering.

Ordering Information:

Specify part number, description then designate pipe size for each outlet
 Example: 2142-02, DX w/3, 3/4" at B, 1/2" at C, 3/4" at D
